## Career Objective

Motivated and results-driven software developer specializing in the MERN stack. Looking to leverage strong JavaScript and full-stack development skills to build scalable and innovative applications while contributing to the growth and success of the organization.

## Professional Summary

**Intern:** *Techpile Technology Pvt Ltd, Lucknow [June-2024 ]*

- Completed 8-month internship focused on developing full-stack applications.
- Gained hands-on experience in MongoDB, Express.js, React.js, and Node.js.
- Collaborated with cross-functional teams to ensure timely delivery of features.

**Summer Trainee:** *Techpile Technology Pvt Ltd, Lucknow (July 2023 – August 2023)*

- Participated in a 45-day summer training program to strengthen skills in JavaScript and backend development.

## Academic Details

### - Bachelor in Technology (B.Tech) in Computer Science and Engineering

*Sagar Institute of Technology and Management Barabanki* | 2024 – 27

### - Diploma in Computer Science and Engineering

*Sant Ravidas Government Polytechnic, Chakiya, Chandauli* | I Division | 2021 - 24

### - High School : Dr. Savita Memorial Global Academy, Mirzapur | I Division | 2019 – 21

## Technical Skills

- **Programming Languages:** *JavaScript , TypeScript*
- **Frameworks:** *React.js, Bootstrap, Tailwind CSS*
- **Tools:** *MongoDB Atlas, Postman*
- **Backend:** *Node.js, Express.js*
- **Database:** *MySQL, MongoDB*
- **Version Control:** *Git, GitHub*

## Experience

### **Techpile Technology (P) Ltd.- 2024 – 31 Jan 2025 (Jr. Software Developer)**

- Developed dynamic web applications utilizing MongoDB, Express.js, React.js, and Node.js
- Integrated state management using Redux and ensured responsiveness and cross-device compatibility implementing RESTful APIs & using Tailwind CSS.
- Collaborated with Agile teams to write unit tests, optimize performance, and deliver features on time.

### **Piedocx Technologies (P) Ltd.- 1 Feb 2025 – Present (MERN-Stack Developer )**

- Developing scalable full-stack applications using MERN.
- Implementing advanced state management (Redux Toolkit, Context API).
- Optimizing backend performance and API efficiency.
- Enhancing security with JWT, OAuth.

## Project Summary

### **Online Shopping Platform**

- Developed an e-commerce platform using React.js, Node.js, and MongoDB.
- Ensured smooth user experience with a responsive UI using Tailwind CSS.

### **Text-Based Chat AI**

- Developed real-time text-based AI chat application using the MERN stack (MongoDB, Express.js, React.js, Node.js), integrating OpenAI API for intelligent responses.
- Implemented user authentication with JWT, stored conversation data in MongoDB,
- Designed a responsive UI, ensuring cross-device compatibility and an engaging user experience.
